100 YEARS OF EXCELLENCE

WE START WITH **INTEGRITY** AND END WITH **EXCELLENCE**

Headquartered in Jeddah, Saudi Arabia, Zahid Group has successfully evolved over the course of the last century from its origins as a modest trading concern to become a multi-national organization encompassing a diverse portfolio of companies operating across 12 sectors. The Group's success is built on long-standing partnerships, associations with globally renowned brands and its adherence to the highest levels of professionalism and operating standards.

OUR ETHOS

VISION

To ensure the company's continued leadership through customer service, product availability and growth while accelerating understanding of the needs of the market and ambition of our Kingdom.

MISSION

To provide excellence in customer solutions through the provision of rental and sales alternatives via a highly motivated workforce in partnership with the leading brands in the world.

Headquartered in Jeddah, with branches across the Kingdom of Saudi Arabia. At EJAR, we proudly rent and sell equipment that helps construction companies, contractors and engineers deliver on their ongoing projects more efficiently. Whether you operate in general construction, industrial manufacturing, commercial or residential building operations & management, utilities, road building, landscaping or contracting, & events, EJAR has the equipment you need to successfully and effectively deliver.

All EJAR equipment is safe, reliable and features the latest technology. We take pride in our maintenance and after sales services. Our team is also on hand to offer onsite support, expert advice and operator training.

OUR PRODUCTS

We've got you covered, whether you're looking for

GENERATORS (20 KVA - 1250 KVA)

Our diesel-fueled generator sets are built to world-class standards, for high efficiency. Our commercial and industrial generator sets come in a range of options to match your power needs, making selecting and installing simple. Discover power designed for your demands.

BUILDING CONSTRUCTION PRODUCTS

CAT machines can be used for any job relating to construction whether you are looking for a Skid Steer Loader, Forklift, Telehandler, Small Wheel Loader, Backhoe Loader, Compactor, or Mini Excavators. Our machines are designed and built for maximum performance and safety. CAT is constantly developing and refining advanced technologies to ensure that their machines reliability follow the companies high standard.

AERIAL PLATFORMS (8 ft – 56 ft)

Our engine and electric powered boom and scissor lifts give you the reach and power you need for the best outdoor and indoor performance. For jobs that require you to reach up and over objects, you need an articulating boom lift. Our telescopic boom lifts reach out further with more capacity, putting you right where you need to be as simply and efficiently as possible. In larger work areas with generally higher load capacities our scissor lifts can deliver exceptional terrain ability and gradeability, making it easier to maneuver through the roughest job sites.

FORKLIFTS (1.5 Ton - 52 Ton)

The forklift is built to suit the conditions under which it will operate, with a smooth control of all function, optimum visibility of the working area and machine that can perform demanding tasks and no matter your application or your site needs, we're sure to have a forklift that meets your requirements.

PORTA TOILETS

VIP receptions, gala dinners, upper-class entertainment: at top-notch events, only the best will do. And that applies to sanitary facilities, too. With a fine eye to detail, we've designed our Premium Line sanitary containers to meet the most exacting and discerning requirements.

Beautifully coordinated materials, colors, and shapes will leave your guests impressed. The spacious and stylish interiors have a timelessly elegant feel: marbled walls, tiled floors, luxury washroom and make-up facilities. Halogen lights have been integrated into the ceiling to immerse the interior in an atmospheric light. Air conditioning, subtle background music, and numerous additional extras underscore the exclusive atmosphere.

TRIME[®]
Lighting Towers

LIGHT TOWERS

Put your work in its best light. Whether working in construction, mining, oil & gas or the rental markets, you want jobsite lighting that will not fail you when you need it most. You're looking for reliability, service, support and no excuses. You can trust our best-in-class light towers to maximize your jobsite and keep it running all through the night LED Light Towers that are perfect for events and late-night work.

SOLAR LIGHT TOWERS

Our solar powered light towers offer the ideal alternate solution to conventional diesel powered lighting systems. A range of lighting towers with fully battery 100% silent. Ideal for Event market (Zero Noise and Zero Emissions) and indoors working sites such as building restoration and Rail maintenance even in tunnels.

GOLF CARTS

When it comes to alternative transportation, electric golf carts are becoming the popular choice. The Golf Carts are very useful in operations and logistics and can be used to transport people and serve many places such as airports, hotels and large real estate areas. It is easy to drive and park and no need to hire professional drivers because anyone can drive it effortlessly.

COMPRESSORS (185 CFM - 1600 CFM)

Doosan Portable Power has a full range of portable air compressors from 185 to 1600 cfm at 100 to 500 psi. These durable, rugged and versatile compressors from Doosan are rigorously tested to ensure they perform in the harshest conditions.

Doosan Portable Power air compressors also have the most options available in the market so you can customize your equipment to fit your needs.

COMPACTORS

Paclite offers a wide range of industrial equipment for the compaction of road maintenance.

POWERWASHERS

The Brendon Bowser washer range enables remote cleaning in and around populated / areas sensitive to noise pollution. Even when operating at maximum pressure the noise of the engine is lower than the noise generated by the nozzle cleaning. The unit has the same water tank capacity as the popular range, of 940 Liters, allowing up to 1 1/2 hours cleaning time.

SITE DUMPERS

Specializes in diesel-driven dumpers capacity from 2 up to 9 TON, so you can be confident you are dealing with the experts. At every stage of the manufacturing process each component has passed the most stringent tests before the assembled dumper goes through its final pre-dispatch inspection.

CONCRETE MIXER

Belle is an established manufacturer of light compaction and concrete equipment for the Building and Construction markets.

BEACH CLEANING MACHINES

BeachTech machines are professional sand cleaning and stone picking. It also cleans sand on inland waterways, horse arenas or on playgrounds and sports fields away from the ocean beaches. The sand cleaners pick up the sand, screen it out and thus remove even the smallest dirt particles such as cigarette butts, broken glass or crown caps, stones and metal parts, but also plant growth. What remains is a clean, but also safe sand surface. No sand is removed when using BeachTech technology.

CLEANING PRODUCTS

The Dulevo Fayat Group ranks as the leading Italian manufacturer of sweepers with a wide range of outdoor and indoor cleaning models.

The scrubber which is the ideal solution for cleaning and sanitizing both industrial areas, such as warehouses and airports, and professional areas.

WELDING MACHINES (20 AMP – 590 AMP)

Miller welders help you get the job done in a wide variety of demanding applications. Explore our selection of welding machines & rods/wires to find the welder that's right for you.

WAREHOUSING PRODUCTS

CAT has designed a high performing range of warehouse equipment, to help you make the most of the available space in your storage facilities and to operate more efficiently.

REACH STACKER

Konecranes is a world-leading group of Lifting businesses, serving a broad range of customers, including manufacturing and process industries, shipyards, ports and terminals. The Liftace reach stackers meet the modern challenges of professional container or heavy general cargo handling with an impressive loading capacity of 45 tons, and high working speeds with simple and safe operation.

BASKET MOUNTED TRUCK

“Platform for aerial works”, with their basket trucks this is the equipment that has finally enabled operators to work safely and with comfort at high altitude ensuring maximum efficiency in completing the task on hand.

The basket can be insulated to support all categories A,B & C up to 500KV.

BAUER MACHINES

BAUER machines GmbH designs and manufactures rotary drilling rigs, foundation cranes, diaphragm wall equipment and all related tools. Bauer's Machinery and equipment are known to have elite performance and quality as well as continuous innovation in their field.

Ejar is the sole dealer of Bauer in the kingdom of Saudi Arabia since 2009.

BSP

The RIC attachment currently being manufactured by BSP is mountable on a regular hydraulic crawler excavator in the 65 t to 85t operating weight category. During controlled impact the RIC's 1.5m diameter foot stays in contact with the ground, ensuring efficient impact energy transfer to the ground at all times. Energy is imparted by dropping the weight through a relatively small height of up to 1.2m at a rate of between 20 to 30 blows per minute.
